

Digital Citizen

ISD

Grade 9

The course is required for all 9th grade students. The main goal of this class is to set students up to be responsible and effective users of their school devices.

Essential Questions

What responsibilities do I have as technology user to myself, peers, the school, the community, and the world?

How can technology help me in my learning?

How does the Internet impact truth, honesty, and privacy?

How is information controlled and disseminated on the Internet?

Students who complete this class

Respect and care for their peers, teachers, and equipment.
